Topic: **The Mucusless Diet Healing System** as taught by Prof. Arnold Ehret (1866-1922) follows the body's natural process of self-repair. Ehret's philosophy is that every disease is related to a mucus-clogged system, resulting from the accumulation of undigested and unnatural food substances, commencing in childhood. He believed that vitality depends on removing these obstructions. Thierry's explanation of these principles can help you create an energetic lifestyle, free from the poisons that plague modern society.

Speaker: **Thierry Browers** is a World Renowned Superior Health Advocate with expertise in: Vitality, Water, Geometrically Organized Laws of Nature. Founder: Nuage Cafe (Raw Vegan Eatery / Quantum Center) and The Vitalitians Society (NGO promoting logical thinking, peace and wellness).

**TAMARAC COMMUNITY CTR, Paradise Ballroom 954-597-3620**
